1. **Reader is confident**
   AI reader confidence 94% is at or above 90%, so we trust the flag and set urgency from the finding.
2. **Risk committee**
   Skipped: not needed when the reader is confident.
3. **Follow-up tier**
   Patient risk score 9%. Tier sets how hard and how fast we chase this follow-up.

P1 **Navigator calls within 24 h and books the slot**
